Christian Science Services

In Odd Fellows' Hall every Sunday morning at 11 o'clock. Subject for August 6—Spirit. The public is cordially invited.

The Rev. and Mrs. R. D. Smart and children returned this week to the home of her sister, Mrs. J. F. Wilson, after a year in the East. They have been having a furlough and are returning to their mission work at Soo Chow, China.

Judge R. H. Scott and family returned to their home in Cheyenne, Wyoming, last Monday, after two years in Campbell. This splendid family made many warm friends during their residence here, all of whom regret to have them go away. Richard and Miss Olive graduated from C. U. H. S. last spring. The Press editor feels the loss of a good friend and neighbor.

Mr. Lloyd Out Again

J. C. Lloyd is slowly recovering from his illness and is now able to be around again but will not attempt work for some time. His trouble is simply a break down of the stomach. Mr. Smith, a good all-round man, is in charge of the shop. Merle Lloyd, pharmacist, San Francisco, has been granted a month's vacation and with his wife will accompany his father's family for an outing in the mountains back of Alma.

Everybody Sing

The Muses are making headquarters at Mr. Vogt's tonsorial parlor these evenings. A traveling auto-harpist plays the sweet stringed instrument and so charms his listeners that many voices break out in song. It must be a form of hypnotism, as we never dreamed that Campbell had so many fine singers. Last evening the editor stopped on the sidewalk in the crowd and stood spellbound for sometime as the voice of Jim Kelley lead off with the high soprano while the harp played the dear old tunes Old Oaken Bucket, Rock of Ages, and many others. Then in perfect harmony came in the tenor of Al Bulmore and the alto of Warren McKenzie; Geo. Davis and Morris Weeks and Will Spaggle swelled out good and strong as Roy Sawyer slid in on second base. The climax was reached while Mr. Vogt was skillfully removing the hirsute appendages from the face of Henry Griffin and the harp was playing "Silver Threads Among the Gold." It is said that the heart of Mr. Griffin was so touched that the tears came to his eyes, and the spell continued even until the next day when the harpist call at Mr. Griffin's home and touched his pocketbook for $8.50. Much more might be said about this wonderful harp and the singers, but since our increasing family will need our support we will refrain from further remarks.

A Lively Runaway

A big gray team from the Dutard ranch became frightened by the cannery whistle last Saturday afternoon and made a mad dash for liberty. They ran toward Campbell Avenue and at the corner ran into a single rig driven by a Mr. Alexander. The wagon was wrecked and the man injured. The team then dashed across the street and struck the corner of Mr. Curry's office, nearly tearing the whole front from the building. Breaking loose from the wagon the team next struck a big pole in front of the Farmers Union, throwing both horses and separating them. The frightened animals then jumped up and ran north on Central avenue.

Mrs. Forbes Leaves Post Office

Mrs. Forbes has resigned her position in the postoffice and will return to teaching. She has a school in Placer county near her old home. She will first go to visit her mother at Dutch Flats. Mrs. Forbes has been in he postoffice for the last 13 months and has made a splendid assistant, and by her courteous and obliging manner made many new friends. Mrs. F. O. Putnam succeeds Mrs. Forbes. She began her new duties last Wednesday. The appointment meets with general satisfaction.

Special Week-Day Excursion Rates

On account State Convention, Improved Order of Redmen, at San Jose, Peninsular Railway Company will put their regular Sunday excursion rates in effect on Aug. 8th, 9th, 10th, 11th, and 12th. Campbell to San Jose and return, 25 cents. Campbell to Congress Springs and return, 25 cents; no tickets sold on cars. Inquire at S. P. Ticket Office, Campbell.

Do not miss this opportunity of visiting Congress Springs pleasure park; also run into San Jose while the crowds are there.

Methodist Church

Methodist Church will hold services in the old Y. M. C. A. hall during the Building of the new Church.

Sunday School, 9:45 A. M.
Preaching, 11 A. M.
Epworth League, 6:30 P. M.
Preaching, 7:30 P. M.

Our temporary location is not as large and as commodious as one might desire, but let us fill the building at each service.

The old Church will be moved to the new location some time next week and then the work on our new Church home will begin in earnest.

JOHN F. WILSON, Pastor.

Notice to Subscribers

A blue circle around this notice indicates that your subscription has expired. If you wish the paper discontinued please notify us at once. If we do not hear from you it will be understood that you call soon and leave a dollar.

Summer-time Now

Every week-end and holiday should be spent out-of-doors. An outing at once delightful, inexpensive and convenient is the trip by Peninsular Electric to Congress Springs, the natural pleasure park. This charming resort is private property, but visitors are freely welcome to enjoy its beauties and the healthful waters of the mineral spring. An ideal place for picnics; also "The Grill" now open. Round-trip tickets sold only at Peninsular offices. Time-tables and all information furnished on application at Southern Pacific Ticket Office, Campbell.

Press $1.00 the Year

The Boy and the Bank

One Dollar Will Start an Account

The first twenty-one years of one's life are spent in preparation for the future, and the habits and thoughts that are infused into a person during those twenty-one years will have the greatest influence on the following years of his life.

The boy should be taught to save and put his money in the bank. It is not discouraging to the boy to try to start a bank account when at our bank a dollar will start an account. A dollar is something to the boy, more than it is to the grown ups, and it may seem a little bit hard for him to save. But urge him to try it, and encourage him by giving him odd jobs to do, or giving him a little money now and then. Test the boy. See if he will not learn to save after urging. Point out to him the advantages of having money in the bank.

Get one of our Pocket Banks for the Small Change and Start the Account now at the Beginning of the Half Year, and Commencement of the Fruit Season.

Campbell - - - California

SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our Neighbors in the Far West Reviewed.

What Has Transpired on the Border of the Broad Pacific From Alaska to Mexico.

Nevada City.—The California Midland Railroad will be built between this city and Marysville. An Auburn branch to the road is also being considered.

Tulare.—John and James Howe, former residents of this city, were arrested south of Tulare by the Constable of Tipton on charges of stealing a horse and wagon from a Bakersfield livery stable.

San Jose.—C. Baxter, a rancher who lived on the Bear Creek road, died in the county hospital from a self-inflicted wound in his neck made with a razor a week ago. He was a native of Ireland, aged 73 and unmarried.

Oroville.—Announceument has been made of the launching of a big irrigation project for Butte and Yuba counties, by which it is proposed to place 70,000 acres of the lands of these two counties under a ditch system.

Stockton.—After making two efforts to improve the condition of the local fire department by means of bond issues, the City Council decided to purchase two automobile combination fire machines as a starter for one of the most modern apparatus in the West.

Healdsburg.—William S. Kelly, a prominent rancher of Dry Creek valley, was killed, his 16-year-old daughter, Irene, badly hurt and his wife painfully bruised when the automobile in which they were riding slipped off the road and turned turtle in its plunge down a 20-foot embankment.

Olympia, Wash.—J. H. Wilson, foreman of a section crew at Rainier, confessed to Prosecuting Attorney John M. Wilson and Sheriff Gaston that he killed Archie Coble and his girl bride at Rainier on the night of July 10th. He says he went into the house and killed Coble and then the wife.

Visalia.—By the filing of a petition for a writ of mandate the saloon interests of the city will endeavor to have the action of the City Council set aside and Visalia declared license territory. J. E. Maxwell, a local saloon keeper, is the petitioner, and Judge Allen has set August 4th as the date of the hearing.

Vallejo.—Within 30 days Mare Island will be equipped with the largest and most up-to-date wireless plant on the Pacific Coast. According to the promises made by those constructing the powerful plant, communication will be possible with any steamer with high-power instruments between the California coast and Japan.

Redding.—The Grand Jury, after a brief session, adjourned until August 28th. Former Bank Superintendent Alden Anderson was not called before it, as had been arranged for. Anderson, who is engaged in organizing a new national bank, held a conference with the depositors' committee of the suspended Bank of Shasta County.

Grass Valley.—Samuel Avery, aged 83 years, probably the oldest volunteer firemen in the United States, died here as a result of injuries received in an accident July 4th. On that date an electric car collided with a fire wagon during the parade and Avery was badly crushed. He was a forty-niner, crossing the plains by caravan the year previous.

Alturas.—Following a riot started by a party of Montenegrins, who objected to having their poll taxes, hospital fees and board bills deducted from their wages by the Nevada, California and Oregon Railway Company at Sugar Loaf, five of the rioters are in jail here. During the riot shots were exchanged between the Montenegrins and others working for the company.

Sacramento.—By the terms of a decision written by Justice A. G. Bur[illegible] and handed down in the Third [illegible] Appeal, the Wells [illegible] Company will have to [illegible] San Francisco [illegible] of an injury [illegible] Francisco on [illegible] driving a

SUPPLIES FOR THE STATE AT MUCH REDUCED COST

$30,000 Will be Saved in Office Material Over Previous Years.

Sacramento.—Contracts for State printing office supplies, including textbook material and material for the State department to be supplied after printing by the State Printer, was awarded by the State Board of Control sitting as a board of award.

The list prices are almost cut in half and it is estimated that the State will save between $25,000 and $30,000 on the contracts. Several thousand dollars of this saving will be in the supplies and material for State textbooks.

The only award not announced was that for ink, and the board ordered an analysis to determine the quality of the fluid. The bidder offered to supply the State printing office with ink at 75 cents a pound, while the State has paid $2.50 heretofore for ink of the same quality.

Valuable Ore in Concentrates.

Oroville.—An immense pile of mining concentrates that has lain unguarded for years at the Gold Bank mine, near Forbestown, in this county, where operations long ago ceased, has just been found to be worth thousands of dollars. These concentrates could have been purchased by any one at his own figure. Some days ago Fred Stores, one of the owners of the mine, sacked a carload of the concentrates and shipped it to the Selby smelter for examination. He received word that the returns from the carload would be a profit of $7000. A second carload is being sacked and loaded at the depot here for shipment and all will be smelted. There are several more carloads on the ground.

Quietus on "Little Hell."

Chicago.—In an effort to alleviate conditions in a thickly populated tenement house district on the North Side, locally known as "Little Hell," Mayor Harrison, at the request of women's clubs and social settlement workers ordered traffic stopped on Galt place, between Chicago avenue and Oak street, during the summer months, so as to make the street available as a playground for poor children. There are said to be 2000 children in the district.

Revol Against Leadership.

London. -- The banner of revolt against present party leadership was raised at a dinner given for the Earl of Halsbury, which the extremists among the Unionists intended should be a demonstration of their strength. Several hundred Unionists peers, Unionist members of the House of Commons and party workers cheered the policy of resistance.

Many Killed in Wreck.

Hamlet, N. C.—Seven people were killed and 40 injured, many of whom will die, when an excursion train from Durham, N. C., running as second No. 33 on the Seaboard Air Line Rairoad, bound for Charlotte, rushed head-on into a freight train in the yards at this place. All the dead and practically all the injured are negroes.

New Executive Secretary.

Sacramento.—Franklin A. Griffin, former law associate of Governor Johnson, has been named as executive secretary to succeed Professor Reed, resigned. Griffin will come to Sacramento August 1st, when Reed will leave to again take up his work in the University of California.

No Flights over Cities.

New York.—The Aero Club of America has placed itself in line with various cities of Europe and aeronautical organizations abroad by barring out flights over large cities. Aviators who indulge in such flights may hereafter be deprived of their licenses in this country.

To Reduce Freight Rates.

Denver.—The Denver Chamber of Commerce announced that it will demand a reduction of from 10 to 80 per cent in freight rates, based on the decision made by the Interstate Commerce Commission in the Spokane and allied rate cases.

Lynching in Juarez.

El Paso, Texas.— Twenty Chinese were rounded up and locked in jail, charged with lynching a Chinese, whose body was found hanging from a tree on the outskirts of Juarez. It is the first lynching on record in Juarez.

Millionaire Beaten to Death.

New Y[illegible]—Burglars beat [illegible] death William [illegible]ckso[illegible] a millio[illegible] his [illegible]

Location For Great 1915 Fair Satisfactory to All

San Francisco.—By a unanimous vote the Board of Directors of the Panama-Pacific International Exposition have decided where to put the fair. The whole point of the peninsula will be used to a greater or less extent, and the city itself is reckoned in a manner as part of the site.

The magnitude of the plan goes beyond anything heretofore undertaken. The civic center will be at the intersection of Market street and Van Ness avenue, in the center of the city, and the whole will be interbound by boulevards and esplanades that will wind and dip over and around the town's northern border, from Telegraph Hill to the parks and ocean, making a vast panorama of the boundless Pacific and bay of San Francisco, with a bordering of hills and mountain peaks.

The lasting benefits from the expenditure of the vast amount of money contributed by the people of the State will be permanent buildings that could not otherwise be erected in many years to come, and possibly never.

Commencing at Telegraph Hill and by means of a boulevard along the bay front, connecting in turn, with the Harbor View site, the Presidio, Lincoln Park and Golden Gate Park. The length of the proposed boulevard is estimated at between eight and nine miles.

These various sections of the site will be connected also by an intermural railroad, which, according to present plans, will run along the south sides of Harbor View and the Presidio and then break off, skirting Lincoln Park and running through Richmond district to Golden Gate Park.

The various features of the exposition grounds will be distributed as follows, according to the tentative plans under consideration:

Of the Harbor View territory it is proposed to utilize between 250 and 300 acres. Here will be located such heavy exhibits as the transportation (locomotive) machinery and, perhaps, the manufacturers' building; also the concessions and other features that will costitute the night life of the exposition. It is not proposed to do any filling in at the water front of this section, but to construct there a yacht harbor, an aquatic park and other water front features of the exposition. An aquarium is suggested for the present site of the Fulton Iron Works.

At the Presidio it is expected that the United States Government will erect its Government buildings and exhibits, which, it is suggested, could be afterward used as division headquarters.

Lincoln Park is to be devoted to scenic features, and for that purpose improved and beautified. A giant commemorative statue at the summit, commanding the entrance to the harbor, is contemplated. Picturesque cafes and gardens are to be located here.

Connecting Lincoln Park with Golden Gate Park it is proposed to utilize some 200 acres of land in the Richmond district. Here will be located the foreign, State and counties' buildings and the horticultural, electrical and other exhibits.

Golden Gate Park is reserved for the construction of only permanent features that are calculated to add to its attractiveness without destroying any of its natural beauty. Here are to be located the museum and art gallery, also Japanese and Chinese gardens, fountains and statuary. It is proposed to make the Stadium the finest in the world and to build a coliseum around it. Another feature will be a miniature Panama canal connecting the lakes. Only the section west of Twentieth avenue is to be used for exposition purposes.

It is proposed to commemorate the use to which Telegraph Hill was put in early days by erecting thereon a large wireless telegraph station. The hill is to be terraced and a permanent observatory erected on the city park.

The ferry at the foot of Market street is to be made the entrance to exposition city. There will be a grand court and, possibly, viaducts to conduct passengers from either side of Market street. Market street is to be improved and beautified with electric light features; also Van Ness avenue. An auditorium or convention hall is designed for Van Ness avenue and Market street.

The main entrance to the exposition grounds will be located near Fort Mason, with others at Lincoln and Golden Gate Parks.

The Wealthy Peers and Ruling Class Oppose Measure

Ottawa, Ont.—A big international boodle fund is being raised to beat the reciprocity bill.

Great Britain, Canada and the United States will figure in the three-cornered last ditch effort to encompass this end.

From the United States will come a big contribution from the lumber and paper trust.

The protected interests of Canada will contribute a big slice.

The tariff reformers of England, those who are behind the propaganda to put the mother country on a protective tariff basis, will swing in with their share of the golden motive power.

Information received here by members of the Liberal party is to the effect that from England alone there is already half a million dollars on the way. Accompanying it is a series of English posters that have been used in the campaign there against the move to make the enormously wealthy peers bear a just share of the taxation.

The rich tories see in the reciprocity movement not so much a blow at the British preferential, as a manifestation of a general tendency against the ruling classes.

The motives of the paper and lumber trusts in the States are easy to understand, while the animosity of the manufacturers of Canada to any movement for lower tariff is easily appreciated.

Government Commission to be Appointed for P. P. I. E.

Washington.—Agreement on a site for the exposition brought joy to California members of Congress and stirred Senator Root, chairman of the Committee on Expositions, to activity. The New York Senator, after talking with Senators Perkins and Newlands and Representative Kahn, announced that in his opinion provision for a Government commission should be made at this session of Congress.

He asked Kahn to obtain for him a copy of all the legislation, constitutional and statutory, on the exposition proect for use by him in preparing a commission bill, such as he said will assure the success of the exposition and give assurance to foreign governmenst that there will be none of the friction over the San Francisco fair such as marred other big expositions, notably Chicago and St. Liouis. It is Senator Root's idea that a copy of the law providing for a Government commission to regulate the relations between the fair company and foreign exhibitors, whether Governments or individuals, should be sent out with the invitation.

The Senator will probably introduce a bil before he gets the matter he wants and have his committee consider it, so as to get the legislation started in time to bring it to a conclusion before the end of the session.

Lawyer Thinks He Has Clue to Mt. Tamalalpais Mystery

Santa Rosa.—On the theory that Dr. L. C. Chisholm, who stands convicted of the murder of John D. Powell, may be connected with the murder mystery revealed on Mt. Tamalpais two years ago, District Attorney Lea of Sonoma county has begun work [illegible] prose[illegible]tor has information [illegible] be[illegible] to Ch[illegible] the slayer of the woman who was never identified, but whose bleached bones were found on the famous mountain. Information as to the nature of the evidence in Lea's possession was refused, and the only name which it is thought may fit the unidentified woman is that of Minnie Passi, who disappeared from San Francisco some time before the discovery of the body.

ONE MILLION COPIES OF TWENTY-ONE AMMENDMENTS

State Secretary to Issue Imfomation To County Clerks This Month.

Sacramento.—An order for the printing of 1,000,000 copies of the 23 proposed constitutional amendments, which are to be voted upon at the special election on October 10th, has been placed by the Secreatay of State with the State Printer.

Heretofore the proposed amendments have been printed on a large single sheet, but on account of the number and importance of the amendments this time they are to be printed in pamphlet form. The booklets will contain the sections of the constitution proposed to be amended, as well as the amendments themselves.

The booklet also will contain brief arguments for and against the amendments, prepared by the Senators and Assemblymen named by President of the Senate Wallace and Speaker of the House Hewitt just before adjournment of the 1911 Legislature.

In accordance with the law, Secretary of State Jordan will send the booklets to the clerks of the 58 counties of the State to be distributed to the voters. Under a new law, State Superintendent Hyatt will distribute about 20,000 copies to normal, high and grammar schools and other institutions of learning.

Marooned on Broken Pier.

Los Angeles. -- Sixty feet of the Playa del Rey recreation pier, a shore end section, was suddenly ripped out by the high tides and 50 men, women and children, most of whom were fishing were marooned on the outer end above deep water. In peril of being swept away by the heavy seas, their danger was heightened when a fire broke out on what remained of the pier, the dangling end of a broken trolley wire igniting the wood. After a scene of wild confusion cool heads rallied the men, and after a hard struggle the flames were extinguished. A bridge was improvised by means of cables and planks, and in about two hours the terrified women and children were taken ashore, followed by the men.

Body of Mary Ilg Found in Water.

San Francisco.—The body of Mary Gertrude Ilg, the pretty stenographer, whose mysterious disappearance two weeks ago from her home in this city had led to a wide and baffling search, was found last Friday floating among the driftwood of the sea in a cove near Duxbury Reef, two miles north of Bolinas, on the Marin county shore. The body is supposed to have been in the water since the day of her disappearance.

Robbers in Taxicab.

New York. Three armed thieves invaded the heart of the tenderloin at its gayest hour at night, smashed a Sixth avenue jeweler's window, shot his clerk dead, seized $5000 worth of diamond rings and escaped in a taxicab, pursued by scores of persons who had witnessed the murder and robbery.

Exposition Tax in Solano.

Vallejo.—The Board of Supervisors has decided to levy a tax of 6 cents on every $100 of assessable property for the next four years for the purpose of maintaining an exhibit at the Panama-Pacific Exposition in San Francisco in 1915. This tax will give Solano county $60,000 for its display.

Mexico Seeks Reciprocity.

Washington.—Reciprocity with Mexico similar to the Canadian reciprocity is proposed in a resolution introduced by Representative Burleson of Texas calling upon President Taft to start negotiations immediately with Mexico "looking to free commerce between the two countries."

Underground Thoroughfare.

New York.—Within ten days thousands of men will probably begin the construction of the most elaborate system of underground thoroughfares in the world, involving the expenditure of approximately $225,000,000, has been awarded to the Brooklyn Rapid Transit Company.

Former Assessor Now No. 25,091.

Oakland.—At 9:15 o'clock last Saturday morning No. 25,091 became the identifying symbol of Henry P. Dalton, the convicted former Assessor of Alameda county, when the prison gates clanged behind him at San Quentin.

Business Square Burns.

Grand Forks, B. C.—The principal business square of Grand Forks was destroyed by fire, causing a loss of $100,000.

WEEK'S DOINGS OF THE WORLD BRIEFLY TOLD

News From All Points of the Compass by Wire and by Wireless

Important Events From Oyster Bay to Mombasa Presented in Pithy Paragraphs.

Havana.—Skeletons recovered from the Maine so far number 15.

Winnipeg.—It will need 75,000 men to harvest western Canada's wheat crop.

New York.—Simon E. Bernheimer, a millionaire brewer, dropped dead while playing a bass drum at a rehearsal of a Masonic band.

Paris.—Private dispatches received here say Mme. Lantelme, the noted Parisian actress, was accidentally drowned in the Rhine near the Holland frontier.

Perth Amboy, N. J.—The British steamship Kirby Banks, which arrived from Tampico, Mexico, has been held in quarantine following the finding of a suspected case of cholera.

Berlin.—A telegram from Constantinople says that the condition of Sultan Mehemed V is causing anxiety to his physicians. He is suffering from kidney disease and arterio-sclerosis.

Washington.—After a lapse of two years the ratifications of the treaty between America and Brazil have been exchanged. The treaty becomes effective as soon as proclaimed by the President.

Washington.—Congress will be asked soon by the War Department to appropriate $250,000 more to complete the work of raising the battleship Maine in Havana harbor. This will make a total expenditure of $900,000.

St. Petersburg. — The aeroplane piloted by M. Slusarenkes in the St. Petersburg to Moscow race fell near Tsarakoo-Solo. The air man's passenger, M. Shimanski, was killed, and Slusarenkes was badly injured, both legs being broken.

Bridgeport, Conn.—Coroner Wilson in his finding on the wreck of the Federal express here on July 11th, in which 14 were killed, finds the New York, New Haven & Hartford railroad ciminally responsible and that Engineer Curtiss was criminally negligent.

New Orleans.—Caught by a posse after twice escaping, Miles Taylor, the negro who shot five white men at a sawmill in Claiborne parish, was lynched late at night. The negro engaged in a dispute with a white foreman, which led to the shooting of the five men.

Berne, Switzerland. — Miss Mary Louise Thomas, an American, and her Swiss teacher, Miss Levanchy, were drowned in Lake Leman, near Clarens. They were in a rowboat with four others when their craft was run down by a motorboat. Their companions were saved.

Philadelphia.—In the presence of high dignitaries of the church, the most Rev. Edmund Francis Prendergast was enthroned arch-bishop of the metropolitan see of Philadelphia in the Cathedral of St. Peter and St. Paul, succeeding the late Arch-bishop Patrick John Ryan.

New York.—A $1,000,000 endowment fund of the American board of commissioners for foreign missions is announced here by the secretary of the New York branch. The source of the gift is not named. The gift is toward a $2,000,000 endowment which the missionary board has been trying to raise for several years.

Washington.—Germany has projected herself unexpectedly and unnecessarily, as United States officials claim, into the revolution at Hayti by ordering to Cape Haytien the cruiser Bremen. As the action of Germany was taken without consultation with the United States, it had a disturbing effect upon the State Department.

El Paso, Texas.—A band of 11 Yaqui Indian chiefs, headed by Chief Mori, arrived here en route to Mexico City, where they expect to negotiate for justice for their people. Their demand will include the restoration of lands which they assert have been taken from them unlawfully and the return of members of their tribes from Yucatan.

New York.—Forty defendants recently indicted in the Governmnt's prosecution of the alleged wire trust withdrew their pleas of not guilty, submitted themselves to sentence and declined to contest. United States District Attorney Wise opposed the acceptance of such pleas, but Judge Archibald, who was presiding in the United StatesCircuit Court, accepted it.

MY DAUGHTER WAS CURED

By Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"I send you herewith the picture of my fifteen year old daughter Alice, who was restored to health by Lydia E. Pinkham's Vegetable Compound. She was pale, with dark circles under her eyes, weak and irritable. Two different doctors treated her and called it Green Sickness, but she grew worse all the time. Lydia E. Pinkham's Vegetable Compound was recommended, and after taking three bottles she has regained her health, thanks to your medicine. I can recommend it for all female troubles."—Mrs. L. A. CORKRAN, 1103 Rutland Street, Baltimore, Md.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Heed This Advice.

Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take immediate action and be restored to health by Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by its use.

Write to Mrs. Pinkham, Lynn, Mass., for advice, free.

Amelia Bingham, at the recent luncheon in New York of the Actors' Church Alliance, said of dramatic criticism:

"There is one part of dramatic criticism that strikes me as cruel. I refer to the criticism that reproaches an actor or actress with growing old. It is very hard to be reminded of one's age. One is conscious enough of that, dear knows, without being told about it in the papers."

Miss Bingham's tense air relaxed.

"Such critics," she said, "are almost as bad as Lord Lacland. Young Lord Lacland came over to New York and proposed to a rather elderly heiress. She refused him.

"'I am sorry, Lord Lacland,' she said, 'but I can never be anything more to you than a—'

"'Just my luck!' he interrupted, reaching for his hat and stick. 'And I've got two grandmothers already.'"

AN INDIAN WEED REPLACING OPIUM IN FAR INDO-CHINA

Deadly Weed of Small Bulk and Worse Than Alcohol or Opiates.

The Indian weed is being largely imported into Indo-China at the present moment, says our informant, who holds a high position in the military world. He has given us a sprig or two of the hemp plant, which obviously lends itself to the uses of smugglers. With first-hand knowledge of his subject, he declared that this weed, more pernicious than opium or alcohol, will in the near future take the place of opium in the Far East.

It is of small bulk, this deadly weed, is cheap in comparison with its elder brother, opium, and can be smuggled easily. The opium convention does not, as far as we know, take account of the danger which threatens from the importation of this drug.

The French authorities in Indo-China absolutely prohibit the hemp plant, but nevertheless it is being taken into the country in ever-increasing quantities. It can be used as a drink, can be smoked or chewed; the physical and mental effects are deadly.

We have not been able to ascertain as yet whether this noxious drug has made its appearance in Hongkong, but we take this opportunity of calling the attention of the authorities to the danger of it doing so. It is a danger that should exercise the thoughts of the Legislative Council.

This noxious weed is smoked much by the lowest class of natives in South Africa, where it is known under the name of dahgha, and causes many crimes, the Bushmen and Hottentots running amuck when saturated with its hellish effects.—Hongkong Telegraph.

Market Report to Date.

The editor was busy when he was asked: "How are the markets?" The man was referred to the office devil, who looked wise and said: "Young man steady; girls lively and in demand; papas firm, but declining; mammas unsettled, waiting for higher bids; coffee considerably mixed; fresh fish, active and slippery; eggs, quiet, but expected to open soon; whisky still going down; onions, strong; yeast, rising; breadstuffs, heavy; boots and shoes, those on the market are sold and constantly going up and down; hats and caps, not so high as last year, excepting foolscap, which is stationery; tobacco, very low and has a downward tendency; silver, close, but not close enough to get hold of."

Turning Night Into Day.

When the doors opened in the little Indiana theater a farmer wandered in and looked around.

"Ticket, please," said the doorkeeper.

"The only thing I've got again these here op'rys," said the Hoosier as he walked away, "is that they don't begin till bedtime."—Success.

Better Be Careful.

Agent—There is the motor car you want. You never have to crawl under it to put it right.

Customer—You don't?

When the Hair Falls

Stop it! And why not? Falling hair is a disease, a regular disease; and Ayer's Hair Vigor, as made from our new improved formula, quickly and completely destroys that disease. The hair stops falling out, grows more rapidly, and all dandruff disappears.

Does not change the color of the hair.

Ayer's Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

The little book in each package gives the formula of our new Hair Vigor, tells why each ingredient is used, and explains many other interesting things. After reading you will know why this new hair preparation does its work so well.

—Made by the J. C. Ayer Co., Lowell, Mass.—

QUEER DISEASE IS IN CALIFORNIA

Many Here Afflicted with Odd Ailment, Says Prof. Munyon.

Grewsome Creatures Very Common in This State, Finds Expert.

Many California people are afflicted with a queer disease, according to a statement yesterday by Professor James M. Munyon. He made the following remarkable and rather grewsome statement: "Many persons who come to my headquarters at the Owl Drug Co., San Francisco, think they are suffering from simple stomach trouble, when in reality they are the victims of an entirely different disease—that of tape worm. These tape worms are huge internal parasites, which locate in the upper bowel and consume a large percentage of the nutriment in undigested food. They sometimes grow to a length of forty to sixty feet. One may have a tape worm for years and never know the cause of his or her chronic ill health.

"Persons who are suffering from one of these creatures become nervous, weak and irritable, and tire at the least exertion. The tape worm robs one of ambition and vitality and strength, but they are rarely fatal.

"The victim of this disease is apt to believe that he is suffering from chronic stomach trouble, and doctors for years without relief. This is not the fault of the physicians he consults, for there is no absolute diagnosis that will tell positively that one is not a victim of tape worm.

"The most common symptom of this trouble is an abnormal appetite. At times the person is ravenously hungry and cannot get enough to eat. At other times the very sight of food is loathsome. There is a gnawing, faint sensation at the pit of the stomach, and the victim has headaches, fits of dizziness and nausea. He cannot sleep at night and often thinks he is suffering from nervous prostration.

"I have a treatment which has had wonderful success in eliminating these great creatures from the system. In the course of its regular action in aiding digestion, and ridding the blood, kidneys and liver of impurities, it has proven fatal to these great worms. If one has a tapeworm, this treatment will, in nine cases out of ten, stupefy and pass it away, but if not, the treatment will rebuild the run-down person, who is probably suffering from stomach trouble and a general anaemic condition. My doctors report marvelous success here with thit treatment. Fully a dozen persons have passed these worms, but they are naturally reticent about discussing them, and of course we cannot violate their confidence by giving their names to the public."

Letters addressed to Professor J. M. Munyon, care Owl Drug Co., San Francisco, Cal., will receive as careful attention as though the patient called in person. Medical advice and consultation absolutely free. Not a penny to pay.

Rise and Fall.

A boy was driving a donkey and cart which belonged to his widowed mother when he was accosted by a snobbish young man, who, wishing to impress his cleverness upon a young lady who accompanied him, said: "Watch me take a rise out of this boy."

He shouted to the boy: "I say! Do you think your mother would sell me that donkey?"

The boy took a good look at him and answered: "Do you think your mother could keep two?"

It was pleasing to see that the young lady smiled.—Ideas.

Where There Is Rest.

"Sometimes," said Plodding Pete, "I'm tempted to map out a route that'll take me to them there ar'tic regions." "The climate's no good," ventured Meandering Mike. "No. But your nerves git a rest. None of them Eskimos is looking fur farm hands."—Washington Star.

Profundity.

"How did that German philosopher become so celebrated as a leader of thought?"

"He invented a word of which nobody but himself knows the exact meaning."

Lap, Lap.

Davis—How can you call a young elephant of a canine like that one a lap dog?

Smith—Come around some time and hear him eat.—Chicago News.

The first pneumatic tires were made of leather for a horse-drawn vehicle in London in 1845 or 1846.

40 TONS OF COFFIN NAILS AND 60 TONS STEEL PENS

Proof of Graft Among the French When Working in Panama.

James D. Schuyler, one of the most prominent engineers in the West, and a member of the select little party of engineers that was dispatched to Panama to determine whether Uncle Sam was doing the correct thing down there, gave all the latest stupendous statistics concerning the great canal.

Up to May the canal had cost $214,921,424, and it was now calculated that it would entail an expenditure of $375,000,000. How vastly larger the Gatun dam is than anything of the kind attempted before he demonstrated by arrays of figures. The Assouan dam of Egypt is only one-fifth the size.

The concrete for the locks at Panama amounts to 4,347,000 cubic yards. The concrete used at the Croton dam, New York, up to now the largest mass of masonry in the world, amounted to only 855,000 tons. The idea that landslides could endanger the canal was ridiculed by the lecturer.

Among the latest expedients enlisted for stamping out disease carried by mosquitoes has been the pouring of oil on all pools which could not be drained and the introduction of a small fish from the Island of Barbados which thrives on the larvae of the mosquito.

That America is not the only country where graft flourishes was shown by the fact that forty tons of coffin nails were sent to help the French engineers cut the great trench, and sixty tons of Spencerian pens. These the Americans are melting down and utilizing for practical purposes.

Just a Trifle Late.

The editor of a monthly magazine that pays only on publication recently sent the following letter to the ancient address of a contributor:

"If the author of 'Waiting' is still living, he is hereby notified that his poem has just been published and that a check to his credit is awaiting him at this office."

A week later the editor received this reply:

"Dear Sir—The person to whom you refer has been dead for more than thirty years. His grandchildren, however, will be glad to receive the check if forwarded to them during their lifetime."—Boston Traveler.

Sweet Child.

"Yes," said little Elsie, "mamma says she is always glad to let me come to parties at your house."

"It is very nice of your mamma to say that."

"'Cause she says you're so savin' that there's never any danger you'll give me anything that will be rich enough to hurt me."—Chicago Record-Herald.

Strength.

Vistior—I wonder where that horrid odor comes from. It can't be the stockyards, because the wind isn't blowing from that direction.

Native—That wouldn't make any difference, mister; when that smell starts on its travels there's no wind that can stop it.—Chicago Tribune.

Smart Youth.

"Tommy, what did you do with that penny I gave you for taking your medicine?"

"I bought a bun with one halrpenny, ma, and I gave Jimmy the other half to drink the medicine for me."—Tit-Bits.

A Loving Child.

Pupil (to schoolmaster)—Sir, would you mind taking great care how you draw up my report? My parents suffer dreadfully from nerves.—Exchange.

Mouse traps that kill rodents which enter them by electric current taken from an ordinary lighting circuit are a recent invention.

The roofs of about ninety-nine out of every 100 buildings in British South Africa are made of corrugated iron.

If You Want To Win Back Your Health TRY Hostetter's Stomach Bitters

It is a great help in cases of Stomach and Bowel Ills or Malarial Disorders. Try it today.

Faint?

Have *you* weak heart, dizzy feelings, oppressed breathing after meals? Or do you experience pain over the heart, shortness of breath on going up-stairs and the many distressing symptoms which indicate poor circulation and bad blood? A heart tonic, blood and body-builder that has stood the test of over 40 years of cures is

Dr. Pierce's Golden Medical Discovery

The heart becomes regular as clock-work. The red blood corpuscles are increased in number—and the nerves in turn are well fed. The arteries are filled with good rich blood. That is why nervous debility, irritability, fainting spells, disappear and are overcome by this alterative extract of medicinal roots put up by Dr. Pierce without the use of alcohol. Ask your neighbor. Many have been cured of scrofulous conditions, ulcers, "fever-sores," white swellings, etc., by taking Dr. Pierce's Discovery. Just the refreshing and vitalizing tonic needed for excessive tissue waste, in convalescence from fevers or for run-down, anæmic, thin-blooded people. Stick to this safe and sane remedy and refuse all "just as good" kinds offered by the dealer who is looking for a larger profit. Nothing will do you half as much good as Dr. Pierce's Golden Medical Discovery.

Defining It.

"Ive been sent downtown to buy a taboret. What's that?"

"Don't you know? It's one of those things that stand around about shinhigh in the dark."—Cleveland Plain Dealer.

CLOSING OUT

500,000 rolls of fine Wall Paper at 3 cents per roll and up. Paint $1 per gallon. Write for free samples of wall paper and color card of paints. J. L. Ash, 39 Sixth street, San Francisco. Mention this paper.

Why?

"Say, that block of stock you sold me last week has been going down ever since."

"Well, why do you suppose I sold it to you?"—Chicago Record-Herald.

EVERY WOMAN WILL BE INTERESTED.

There has recently been discovered an aromatic pleasant herb cure for woman's ills, called Mother Gray's AUSTRALIAN LEAF. It is the only certain regulator. Cures female Weaknesses and Backache Kidney, Bladder and Urinary troubles. At all Druggists or by mail 50 cents. Sample FREE. Address the Mother Gray Co., Le Roy, N. Y.

At a Summer Resort.

"Anything worth catching in that lake?"

"Yes; I see several heiresses in bathing, and there may be more around the bend."

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe.

On the Way.

Patient—Say! That isn't the tooth I want pulled.

Dentist—Never mind; I am coming to it.—Boston Transcript.

A merchant advertises because he wants your trade. He will make it worth your while to patronize him.

Never Was Stung.

Sunday-school Teacher—Yes, Willie, the Lord loves every living creature.

Willie—I'll bet he was never stung by a wasp!—Puck.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

A Confident Assertion.

"Well, Charley, dear," said young Mrs. Torkins, "I don't know much about baseball—"

"You truly don't," replied her husband.

"But I'd be willing to leave it to the boys on the bleachers if I don't know more about the game than that umpire who gave three straight decisions against us. —Washington Star.

No Judge.

"Your father doesn't think you have been especially well behaved," said the small boy's uncle.

"I know that," answered the precocious juvenile. "But things I have heard mother say make me think he isn't any great judge of high-class deportment."—Tit-Bits.

Some Use.

Lady (to tramp who had been commissioned to find lost poodle)—The poor little darling! Where did you find him?

Tramp—Oh, a man 'ad 'im, miss, tied to a pole, and was cleanin' the windows wiv 'im.—M. A. P.

He Supplied It.

Wallie—How fast the horse is runnin'!

Teacher—You forgot the "g."

Wallie—Gee, How fast the horse is runnin'!—Brooklyn Life.

Friendly Advice.

"So you wish to marry an actress?"

"Yes. I fell in love with her voice after hearing it in a phonograph."

"Better go slow. You can buy the record for 60 cents."

An international congress on radiology and electricity will be held at Brussels this year under the auspices of the Belgian Government.

To economize floor space some German manufacturers are turning out high-speed engines mounted on top of horizontal boilers.

factories for manufac
oplan

Under Advisement.

A Chicago lawyer tells of a newly elected squire in Minnesota, who was much elated by his honors, but not quite sure that he could sustain them gracefully. So for some time previous to his assumption of the office he hung about the courts to get a tip now and then as to legal procedure. One phrase struck him particularly, and it was not long before he had an opportunity to utilize it.

When, sitting in judgment on his first case, the testimony was all in and the arguments made, his honor cleared his throat and delivered himself of the following:

"The Court takes this case under advisement until next Thursday morning when it will render a verdict in favor of the defendant."—Lippincott's.

Character Sketch of a Fan.

The year the Cubs won their first world's championship a crazy mob of enthusiasts pursued Chance, trying to raise him on their shoulders. Chance struggled to free himself. A big, red-faced man, purple from rooting, beat the manager on the back and yelled: "Don't you know me, Frank?"

"Yep," replied Chance coolly. "You're the fellow who hit me on the head with a lemon last fall when the Sox beat us."—American Magazine.

Won't Need Help.

"My husband is particularly liable to seasickness, captain," remarked a woman passenger. "Could you tell him what to do in case of an attack?"

"'Tain't necessary, mum," replied the captain. "He'll do it."—Mariner's Advocate.

Having A Hard Time.

"Johnny, said the visitor at the door, "is your father at home?"

"He's tryin' to be sir," said Johnny, "but you know, Mr. Squiggs, ma's mother's here."—Harper's Weekly.

Use a clean fire brick instead of the ordinary iron stand and you will retain the heat of the iron much longer. The usual iron stand admits the air to the bottom of the iron and also conducts the heat from it.

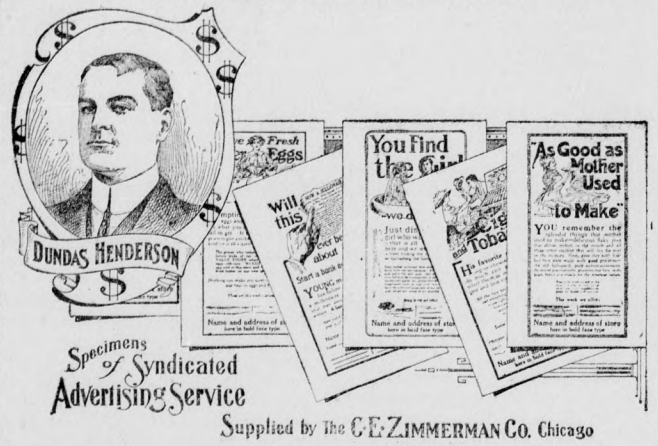
Display Adv., (2 or more inches) 50c an inch per month. 1 inch 75c per month.
Notices of Entertainments where a charge is made, Cards of Thanks, etc., 5c per line.

BUSINESS BUILDING By DUNDAS HENDERSON

Advertising Manager of the C. E. Zimmerman Co., Chicago



An Advertisement Is Your Cheapest Salesman

The chances are that if you go into almost any store in a country town, at the present time, and tell the storekeeper that his cheapest salesman is his advertisement in the local newspaper he will laugh at you. He will laugh because he does not know what salesmanship means. It is the mere showing of his goods to any customer that has the good luck to come into his store, according to his lights. He does not realize that it is possible for customers to be enticed to his store to actually demand goods that they never thought they wanted before.

It is a comparatively easy matter to sell a woman or man goods when you have them in your store and can lay the wares right in front of them. In such a case much more than nine-tenths of the selling act has already been accomplished by the coming of your customer to the store. Even then a salesman who can get big results in the store is classed as highgrade, and his salary, no matter how large, is considered a reasonable expenditure and, in many cases, cheaply spent.

To cause a customer to have a desire to come to your store, where no desire existed before, requires salesmanship of a high order. Such salesmanship makes new customers—builds your business and lays, in short, the foundation of your fortune. No retail business of modern times can make a great success without such salesmanship—without, in other words, the proper utilization of space in your local newspaper. Considering the results this kind of salesmanship obtains, it is the best and cheapest you can buy.

This efficient use of space in your local newspaper has been called salesmanship on paper. If you fill the space with forceful matter that will create attention, cause attention, cause conviction and bring results, you have an addition to your sales force that may surely be called the best promoter on your staff. The results that are obtained from this salesmanship depend on the selling ability used. But no matter what results are obtained, the quality of salesmanship necessary is much greater than that required inside the store.

The big mail-order houses reckon on that they must pay so much money for every inquiry they get. The amount of this sum is ascertained by dividing all the money spent on advertising and selling literature by the number of letters received in answer to the same. This refers to inquiries only. Not every inquirer becomes a customer. The securing of actual customers costs more. The money that has to be spent to get one new customer by those concerns would astonish the local retailer. It is usually not less than the amount spent on several weeks' advertising by the average local storekeeper. The salesmanship on paper that is necessary to do all this is the finest that can be got for money and it is considered cheap at the enormous price paid for it because it is engaged in building up a big mail order business with new material.

The local retailer can apply a lesson from this to himself. If those mail order houses spend so much money to get one new customer, why should a retailer not make an effort in the same direction? Why should he not adopt the same means of attractive salesmanship on paper? If he can bring even one new customer a week to his store with an expenditure that is many times below what a mail order house has to pay for getting the same results, it is worth while paying closer attention to this successful method of selling. If he can influence more than one customer, and it would be poor local newspaper advertising indeed that could not do that, he would be accomplishing far more than the mail order houses with their highly paid selling experts. And, as a business man, he could congratulate himself on a good investment. He could say to himself that he had in his advertisement the cheapest salesman on his force.

It is, of course, not always possible to readily get this strong, convincing selling matter in your newspaper space. You may not be able yourself to write it and you may not have any local person on to whom you can turn. But that need not deter you. There are now on the market one or two syndicated advertising services that are designed especially to suit cases like yours. These services are supplied in a series of fifty-two advertisements with accompanying copperplate engravings, one for each week in the year, at prices ranging from one dollar per week up. Many of the advertisements have been classed by authorities as equal to the best that have made successes for the big city department stores and national advertisers. Reduced facsimiles of several of these advertisements will be seen at the top of this column.

The advertisements shown above have received many testimonials from experts. For instance, Wm. H. Ukers, President of the Grocery and Allied Trades Press Association of America (a combination of the entire American Grocery Trade Press) and editor of the Tea and Coffee Trade Journal, New York, writes:

"I consider your advertisements the best I have seen in a long time."

The Retailers' Journal, Chicago, writes:

"We believe the samples of your advertisements sent us are the best we have ever seen."

After expressions like these from men who have spent long lives amongst the kind of advertising that has built fortunes for the shrewd users, the local merchant who neglects the opportunity now offered him to obtain some of these success making announcements is missing the chance of his lifetime.

The editor of this paper will be glad to supply further particulars of the syndicate whose specimen ads adorn the top of this column and I advise early application as only one of these services will be supplied to each storekeeper in his own town.

Handbag Stolen

Miss M. E. Moulton had her handbag stolen from the reception room of a hair dressing parlor at San Jose last Monday afternoon. The bag contained a gold watch, two purses, an Interurban San Jose-Campbell 30-ride ticket, and a Campbell Bank pass book. One of the purses contained twenty dollars in gold and the other some small change, amounting to less than a dollar.

Big Peaches

D. S. Thompson of McCoy Avenue brought in two immense big peaches today. One weighed 11½ ounces and the other 10 ounces. Can you beat it? We hope to have the fruit canned and placed in that exhibition cabinet we are planning to make. The peaches were "Festers" and the ranch is said to have the reputation of producing the biggest peaches around here.

"Yale" Fruit Press

Now that summer is come and the fruit season is upon us, every woman who does her own preserving needs a fruit press as a time-saver. She will find it simply invaluable for making all sorts of jams, jellies, grape juice and cider, and she will have much better luck with her sweets than by using the old method of straining through a bag and other old-time methods. They come in two, four and eight-quart sizes, to suit the needs of large or small families, and can be clamped onto any table. They are almost indestructible as the presses are made of plaited steel and iron. The thought of having fresh cider on the table every day in the fall should delight every household, particularly if it can be done with such a small amount of labor. Fruit jellies made with this no housekeeper can dread preserving time.

School Books for Next Year's Use

According to a communication from Supt. D. T. Bateman, the following books will have to be purchased by the children of the various grades for the next school year. It will be well for those interested to clip this article out and save it until needed. The letters S. S. after a book denotes State Series.

First Grade.—Primer, S. S.

Second Grade.—First Reader, S. S.

Third Grade.—Second Reader, S. S. Speller, Book One, S. S. Writing Book One, S. S. Music, New First Reader of New Educational Music Course, or common school book of vocal Music of the Modern Music Series S. B. & Company.

Fourth Grade.—Third Reader, S. S. Language Book One, English Lessons. Arithmetic, S. S., First Book. Introductory Geography, S. S. Music same as Third Grade. Writing, S. S., Book Two. Drawing, Book Four, Manual Arts for Elementary Schools. D. C. Heath and Company.

Fifth Grade.—Fourth Reader, S. S. English Lessons, Book One, S. S. Advanced Arithmetic, S. S. Introductory History, S. S. Introductory Geography, S. S. Music, New Third Reader, New Educational Music Course, or common school book of Vocal Music, S. B. and Company. Penmanship, Book Three. Drawing, Manual Arts, Book Four, for Schools of one or two teachers, book Five for schools having three or more teachers. Speller, Book One, S. S.

Sixth Grade.—Fourth Reader, S. S. English Lessons, Book One. Speller, Book One, S. S. Advanced Arithmetic, S. S. The Community and the Citizen. Introductory Geography, S. S. Physiology, S. S. Music, New Third Reader of the New Ed. Music Course, or the common school book of the Vocal Music, S. B. & Company. Penmanship, Book Four, S. S. Drawing Manual Arts, Book Five in schools of one or two teachers. Books Six in schools of three or more teachers.

Seventh Grade.—Fifth Reader, S. S. English Lessons, Book Two, S. S. Spelling, Book Two, S. S. Arithmetic Advanced S. S. Brief History of United States. The Community and the Citizen.
